Installation of Smart Plug

SPR-01 & SPD-01

1. Place the plug in an electrical outlet.
   NOTE! SPD-01 is intended for lighting only.
2. Download the Plejd app and add the device to your system.
3. You can easily set the functions you want in the app.
4. Smart Plug can be controlled wirelessly via the app with Bluetooth®, through other products from Plejd, or with the integrated button.
