Notice!
Installation only by persons with relevant electrical knowledge and experience!*)
Use only with original JUNG product components approved for this article.
By inappropriate installation you endanger
• your own life,
• the life of the user of the electrical appliance.
By inappropriate installation you risk a high loss by damage, e.g. risk by fire.
You assume personal liability in cause of injury to persons or damage of appliances.
Please contact a skilled electrician!

***) Required technical knowledge for installation:**
For installation, especially the following technical knowledge is required:
• the 5 important safety rules: disconnect from mains, secure against reconnecting, verify parts are free of voltage, ground and short-circuit, cover or block off adjacent live parts
• select adequate tools, measuring devices and personal protective equipment
• evaluate measuring results
• selection of the electrical installation material to secure switch-off conditions
• IP protection levels
• installation of the electrical installation material
• type of electric power grid (TN system, IT system, TT system) and the resultant connection terms (common grounding, protective ground, required additional action etc.)
