PROFESSIONAL SMART HOME

Introduction

Thank you for choosing our OnWall/2 wall docking station.

This user manual is intended to guide you through the hardware installation.

Further information and the latest FAQs be found at: **www.eltako.com**

Functional description

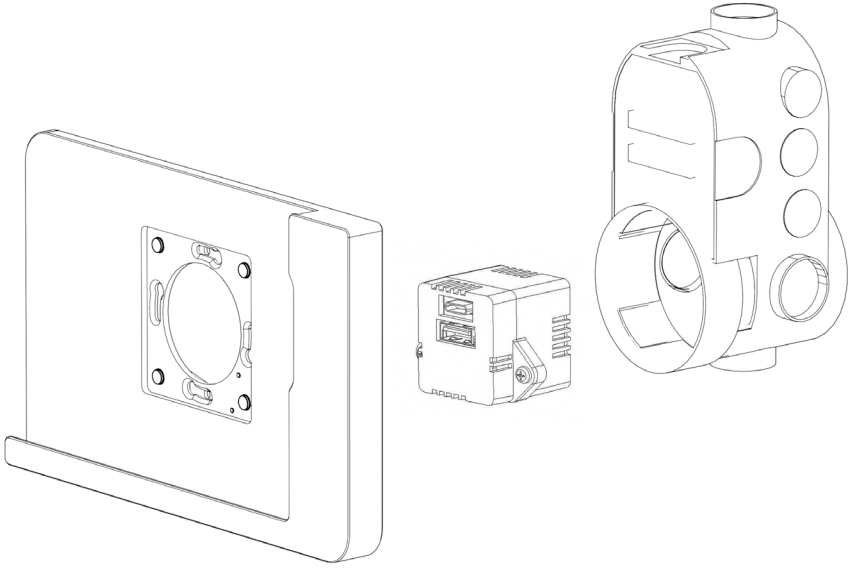

Store and charge a USB-C iPad up to 11".

Package content

The scope of supply includes the ELTAKO OnWall/2, an 110-240 V AC to USB-A and USB-C power supply unit, two WAGO® terminals and two 3x20 mm screws.

Installation

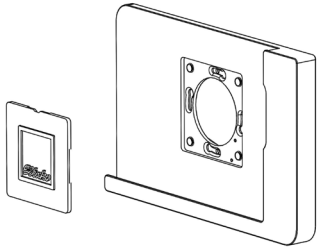

An electronics box must be used for installation.

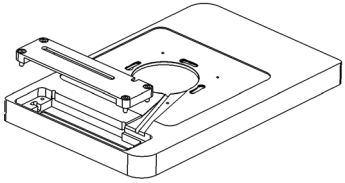

Connecting 110-240 V AC

Connect the connection cable to the power supply unit according to the color code using the WAGO terminals and lower it as far as possible into the electronics box.

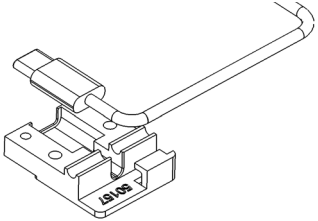

1. Remove the mounting cover from the magnet bracket.

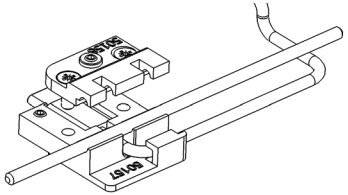

2. Remove the rear mounting cover.

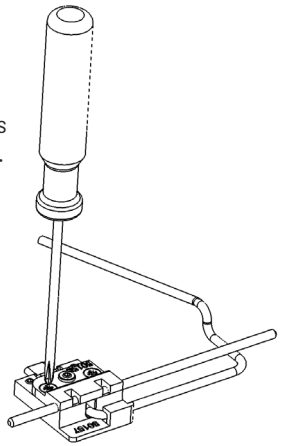

3. Insert the USB-C charging cable supplied with the iPad into the bottom part of the connector holder.

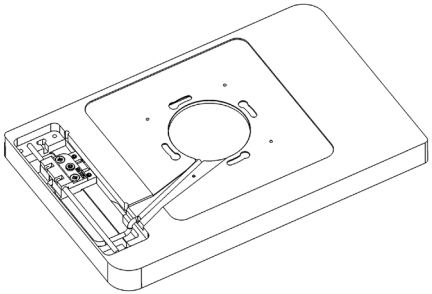

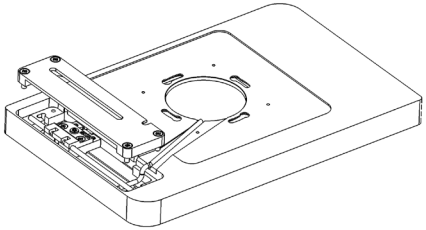

4. Now insert the guide rod and screw the upper part of the plug holder onto the lower part of the plug holder using the two screws provided. The more you tighten the screws, the more difficult it is to move the plug holder on the guide rod.

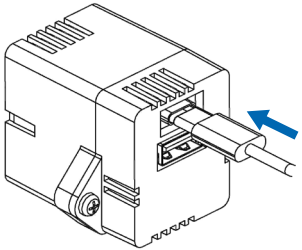

5. Now insert the guide rod with plug holder and USB-C charging cable into the ELTAKO OnWall/2 and mount the rear mounting cover.

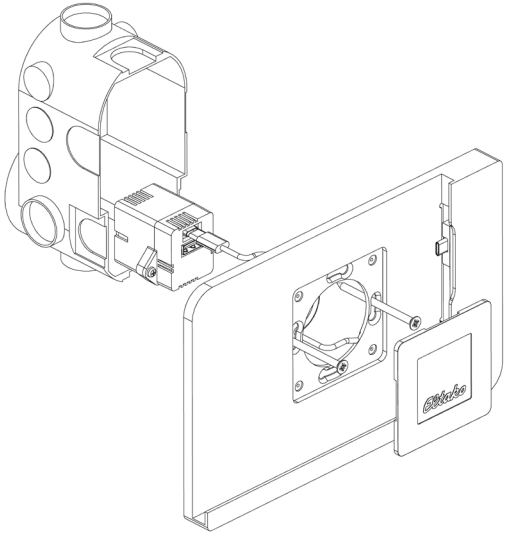

6. Plug the USB-C charging cable supplied with the iPad into the USB-C socket of the ELTAKO OnWall/2 power supply.

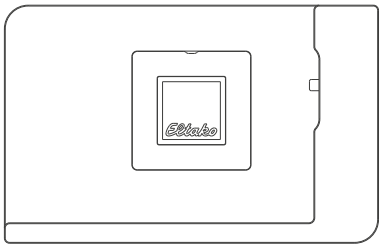

7. Screw the OnWall/2 onto the electronics box with two suitable screws. The supplied 3x20 mm screws can be used if necessary.
   Make sure that the USB-C charging cable does not get pinched.

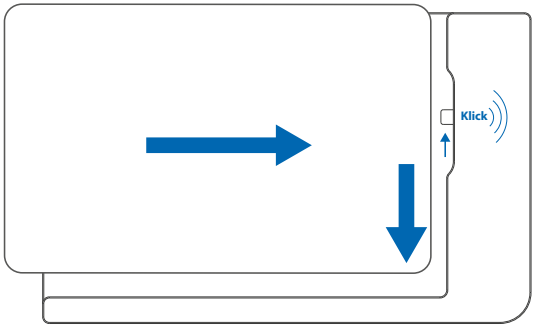

8. Now put the mounting cover back on the OnWall/2.

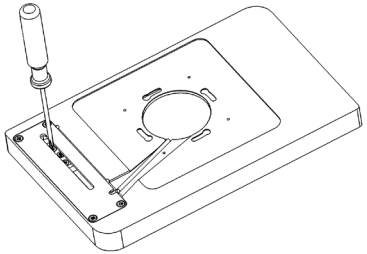

9. The installation is now complete.

Inserting the iPad:

The OnWall/2 has a plug holder that can be moved by hand and thus adjusted to the size of the iPad.
The USB-C charging plug can be individually fixed to the back of the OnWall/2 with a screwdriver and thus optimally adjusted to the desired iPad.
(Not compatible with iPad Pro 12.9“/13“)
The more you tighten the screws, the more difficult it is to move the plug holder on the guide rod.

Technical Data OnWall/2

Outside Dimensions	220 mm x 140 mm x 18 mm
Power Supply	110-240 V AC
Function Description	Store and charge a USB-C iPad up to 11"
