| 10.2.2 Corrosion resistance                              |                  |    | Meets the product standard's requirements. |
| 10.2.3.1 Verification of thermal stability of enclosures |                  |    | Meets the product standard's requirements. |

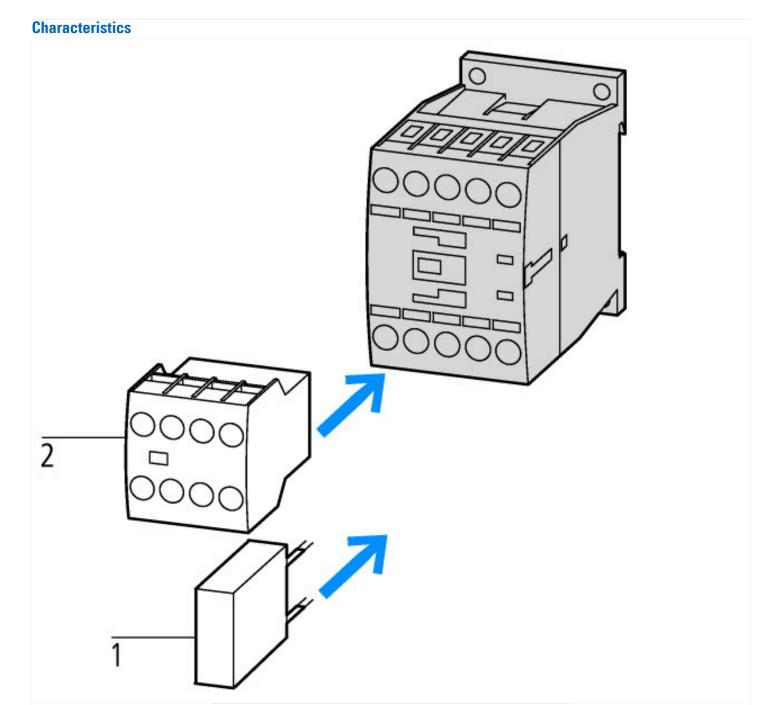

| 10.2.3.2 Verification of resistance of insulating materials to normal heat   | Meets the product standard's requirements.   |
|--|--|
| 10.2.3.3 Verification of resistance of insulating materials to abnormal heat and fire due to internal electric effects | Meets the product standard's requirements.   |
| 10.2.4 Resistance to ultra-violet (UV) radiation   | Meets the product standard's requirements.   |
| 10.2.5 Lifting   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.6 Mechanical impact   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.2.7 Inscriptions  | Meets the product standard's requirements.   |
| 10.3 Degree of protection of ASSEMBLIES  | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.4 Clearances and creepage distances   | Meets the product standard's requirements.   |
| 10.5 Protection against electric shock   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.6 Incorporation of switching devices and components   | Does not apply, since the entire switchgear needs to be evaluated.   |
| 10.7 Internal electrical circuits and connections  | Is the panel builder's responsibility.   |
| 10.8 Connections for external conductors   | Is the panel builder's responsibility.   |
| 10.9 Insulation properties   |  |
| 10.9.2 Power-frequency electric strength   | Is the panel builder's responsibility.   |
| 10.9.3 Impulse withstand voltage   | Is the panel builder's responsibility.   |
| 10.9.4 Testing of enclosures made of insulating material   | Is the panel builder's responsibility.   |
| 10.10 Temperature rise   | The panel builder is responsible for the temperature rise calculation. Eaton will provide heat dissipation data for the devices. |
| 10.11 Short-circuit rating   | Is the panel builder's responsibility. The specifications for the switchgear must observed.                                      |
| 10.12 Electromagnetic compatibility  | Is the panel builder's responsibility. The specifications for the switchgear must observed.                                      |
| 10.13 Mechanical function  | The device meets the requirements, provided the information in the instruction leaflet (IL) is observed.                         |

## **Technical data ETIM 7.0**

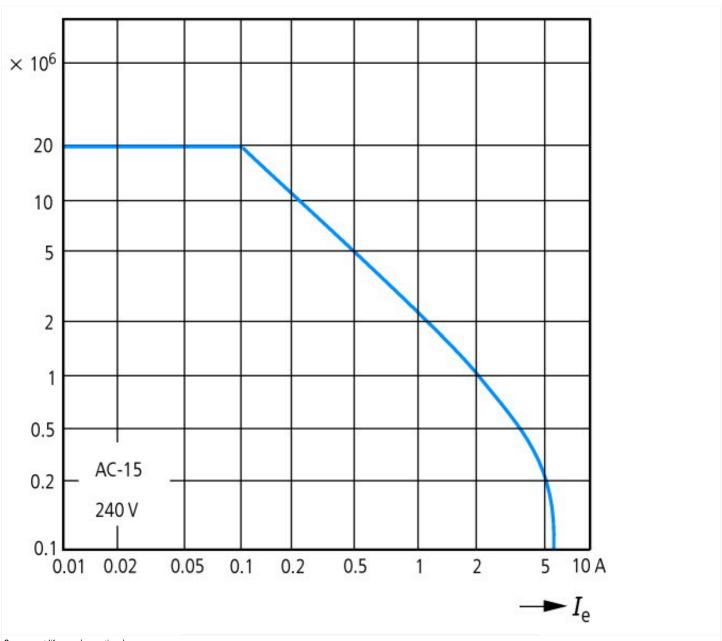

| Low-voltage industrial components (EG000017) / Contactor relay (EC000196)   |   |                  |
|---|---|------------------|
| Electric engineering, automation, process control engineering / Low-voltage switch technology / Contactor (LV) / Contactor relay (ecl@ss10.0.1-27-37-10-01 [AAB716014]) |   |                  |
| Rated control supply voltage Us at AC 50HZ  | V | 0 - 0            |
| Rated control supply voltage Us at AC 60HZ  | V | 0 - 0            |
| Rated control supply voltage Us at DC   | V | 24 - 24          |
| Voltage type for actuating  |   | DC               |
| Rated operation current le, 400 V   | А | 4                |
| Connection type auxiliary circuit   |   | Screw connection |
| Mounting method   |   | DIN-rail/screw   |
| Interface   |   | No               |
| Number of auxiliary contacts as normally closed contact   |   | 1                |
| Number of auxiliary contacts as normally open contact   |   | 3                |
| Number of auxiliary contacts as normally closed contact, delayed switching  |   | 0                |
| Number of auxiliary contacts as normally open contact, leading  |   | 0                |
| With LED indication   |   | No               |
| Number of auxiliary contacts as change-over contact   |   | 0                |
| Manual operation possible   |   | No               |

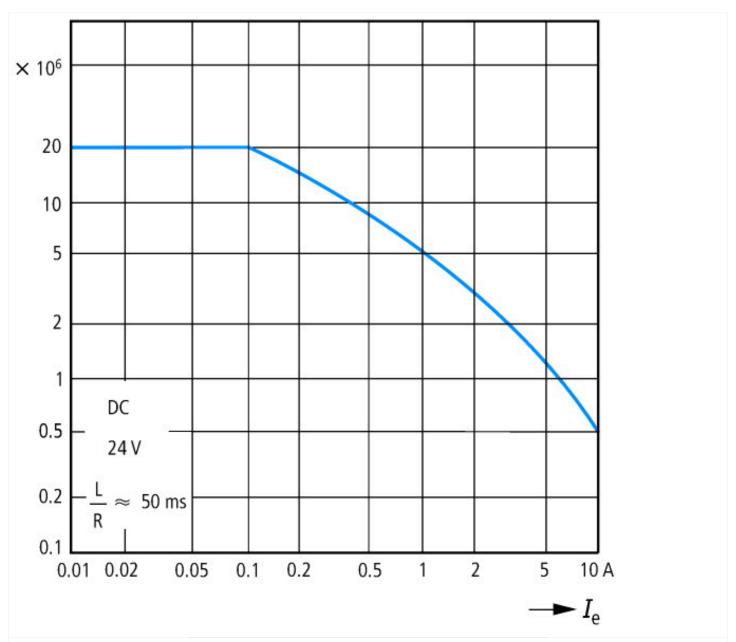

## Approvals
