
Cable ladder 3 m 400 mm

E-no — MP-no 104Z4

MP-Z4 is a zinc magnesium coated 3 m cable ladder that is usable in environmental class max C4. The MP-Z4 has perforated rungs. The perforated side allows the assembly of junctions, angle brackets, etc. The shape of the profile allows cables up to 19 mm in diameter to use over 98% of the width of the cable ladder. Rung distance: c-c 250 mm. Ultimate failure load: more than or equal to 1.7 times the maximum load.
