

Universal bracket 40-60 mm

E-no — MP-no 980S

The bracket for corrugated sheets is suitable for ridge bottoms with width B. In its split state and in combination with the support bracket, the bracket fits all ridge bottoms. The mounting angle has three holes with a diameter of Ø 4.2 mm, intended for 4 mm blind rivets or self-drilling sheet metal screws, not countersunk, of suitable length. Maximum load: 125 kg. Breaking load: equal to or greater than 1.7 times the maximum load. To determine the maximum load capacity of the fastening, consult the supplier's load values for roof sheeting and blind rivets/sheet metal screws.
