

Wall bracket for wire mesh tray

E-no — MP-no 735Z

Wall bracket for hanging wire mesh trays horizontally, vertically or on edge. The bracket is made of hot-dip galvanised sheet (60 µm) and is suitable for environmental class max C2. When mounting as a cantilever arm, it is mainly intended for widths 55 and 75 mm. To lock, simply bend the tongues around the rungs of the ladder.
